Dear ICVEE Committee3,

I apologize profusely to the ICVEE Committee, that I just replied and responded to the email from the ICVEE committee team regarding the submission of my full paper. This is because until August 17, 2020, I had not finished processing the data from my research results.

If the ICVEE committee is still willing to accept my full paper submission, then I will submit it immediately.

For the attention and good cooperation from the ICVEE committee, I thank you.

Best regards
