Dear Mr. Muhammad Rachmatullah:

Thank you for registering your paper 1570512694 (*Determining the Neural Network Topology from the Viewpoint of Kuhn's Philosophy and Popper's Philosophy*) to **2019 International Conference of Artificial Intelligence and Information Technology (ICAIIT)**. You still have to upload your manuscript at <https://edas.info/uploadPaper.php?m=1570512694>. Your manuscript can be application/pdf.

You can see all your submissions and their status at

<https://edas.info/index.php?c=25141>

using your EDAS user id ibnucholdun@poltekpos.ac.id.

Once you upload your manuscript, you will receive another email confirmation.

Dear Mr. Muhammad Rachmatullah:

We are sorry for the notification delay.

Congratulations - your paper #1570512694 ('Determining the Neural Network Topology from the Viewpoint of Kuhn's Philosophy and Popper's Philosophy') for 2019 ICAIIT has been **accepted** and will be presented in the 2019 International Conference of Artificial Intelligence and Information Technology (ICAIIT). Please submit your revised paper by December 22th, 2018. Make sure that you follow the final submission guidelines

<https://www.ieee.org/conferences/publishing/templates.html>

Please also register before **December 22th, 2018**. For the local participant, please do the payment to: Acc name: STEPHANIE PAMELA ADITHAMA, Bank name: CIMB NIAGA BANK, Acc number: 703-095-534-300.

For international participant, please do the payment to the following USD account: Acc name: EDUARD RUSDIANTO, ST, Bank name: PANIN BANK, Acc number: 333-400-187-7.

Then you can confirm your payment through email: icaiit.reg@uajy.ac.id With email's subject: FOR PRESENTER :[PAPER NUMBER]_Payment of Paper FOR ATTENDANCE : Participant Payment

The reviews of your paper are below or can be found at
<https://www.edas.info/showPaper.php?m=1570512694>.

===== Blind review 1 =====

*** Novelty/Originality: Rate the novelty and originality of the ideas or results presented in the paper The ideas and the discussions are interesting to a limited degree (2)

*** Argumentation and discussion: Rate the strength of arguments and discussions in explaining research finding and connection with original research question. The discussion is somewhat interesting and some evidence to support conclusion (3)

*** Clarity: Rate the clarity of the presentation regarding research question/problem and the relevance of the literature overview The presentation is somewhat clear and it has some relation to the literature review (3)

*** Quality of the Submission: Overall Quality of the Submission fair (3)

*** Comments: Comments to the authors

As indicated above, the idea is interesting. However, discussion is rather poor and very general, literature sources are very limited, there is no experimental analysis, the Authors limit considerations to some general notes. English is correct, narration is followable.

The submission requires much of merit elaboration in order to convince much more to its objectives.

The submission is carelessly prepared, it requires revisions, for instance, there are remainders from the template, e.g. "I. INTRODUCTION (HEADING 1)", instructions in section References.

===== Blind review 2 =====

*** Novelty/Originality: Rate the novelty and originality of the ideas or results presented in the paper Some interesting ideas and results on a subject well investigated (3)

*** Argumentation and discussion: Rate the strength of arguments and discussions in explaining research finding and connection with original research question. poor discussion and the conclusion is supported to a limited degree (2)

*** Clarity: Rate the clarity of the presentation regarding research question/problem and the relevance of the literature overview The presentation is clear and has good relation to the literature review (4)

*** Quality of the Submission: Overall Quality of the Submission poor (2)

*** Comments: Comments to the authors

I personally find the proposed approach interesting. However, the strength of the paper fades after literature review. In short, the proposed research is still in a very early stage and the option proposed (Kuhn's philosophy for NN topology and Popper's theory for testing correctness), no

matter how reasonable or rationalized it sounds, need a lot more backup experimental data and analysis to bridge the gap between the concept and practicality/usefulness.

===== Blind review 3 =====

*** Novelty/Originality: Rate the novelty and originality of the ideas or results presented in the paper The ideas and the discussions are interesting to a limited degree (2)

*** Argumentation and discussion: Rate the strength of arguments and discussions in explaining research finding and connection with original research question. poor discussion and the conclusion is supported to a limited degree (2)

*** Clarity: Rate the clarity of the presentation regarding research question/problem and the relevance of the literature overview The presentation is somewhat clear and it has some relation to the literature review (3)

*** Quality of the Submission: Overall Quality of the Submission fair (3)

*** Comments: Comments to the authors

1. the explanation on how to perform the 3 groups research required to justify the research result.
2. Please follow the paper writing instruction, there are several mistakes
3. Need to review the conclusion to state the result to answer the problem stated in the introduction

The researcher I respect,

First we congratulate you on being listed as a speaker at ICAIIT 2019 which will be held in Yogyakarta 13-15 March 2019.

In this regard, we would like to inform the following:

1. Please send your Final Manuscript paper in accordance with the template used in this conference in Microsoft Word (. Doc) format. This file that we will use to upload to IEEE so make sure the data of the author and affiliation in the paper are correct and the paper according to the template.
2. Please send the presentation file that you will use at conference (you can still update this file on day H) in the form of Microsoft Power Point (.ppt).
3. Please send the full name of the author who will present your research and the title of your research. We will use this data as writing on the certificate, making sure there are no errors in writing names / titles.

As a note the certificate is only given to the author who came to present his research.

You can send all three files via this email with the email subject "[Paper ID Number] Speaker Data" before 22 February 2019.

Dear Authors,

We apologize for the delay in information regarding publication in IEEE Xplore.

We face some difficulties regarding copyright so publication in IEEE Xplore is too late.

Through this email, we would like to inform you that ICAIIT proceedings have been received at IEEE Xplore and will be available within the next 3-4 weeks.

We hope you can understand this situation.

Best Regards,

ICAIIT 2019 Committee
