Kepada: ICIMTech Secretary &lt;icimtech@binus.ac.id&gt;

Thanks for the conformation. I want to ask, in my account there are 8 active submissions, which should only have 1 active submissions. this is caused when I do the new submissions process, often having trouble back again to the login menu when it comes to step 2 or 3. so when I log in again, automatically back again to step 1 to repeat the input data. My active submissions ID is 989. The question is, for ID 995,996,997,999,1001,1002,1004 can you delete it?

Thank you for your attention.

Dear mrs maniah :

We have now completed the review of your submission "Driving Factors and Barrier Factors or Challenges for Agriculture Supply Chain : A Systematic Literature Review."

We regret to inform you that your paper cannot be accepted for publication in the Proceedings of ICIMTech 2018.

We are sorry that we could not include your paper in the proceeding because the topic of your paper is irreconcilable with IEEE's engineering topic.

Thank you very much for your interest in this conference and we sincerely hope that the rejection of your paper this time does not discourage your future submission to this conference.

Dear mrs maniah -:

After a careful review of your submission, "The Trigger Factors and Constraints on e-Supply Chain Processes : A Systematic Literature Review" will be considered for presentation at International Conference on Information Management and Technology (ICIMTech) if the following revisions are successfully implemented.

PLEASE CONSIDER THE DEADLINE OF REVISION IS A WEEK AFTER THIS EMAIL.

Here are some information you have to complete in your revision:

1. Revise your paper based on our reviewer comments below this email.
2. Analysis using the CrossCheck plagiarism-detection tool has revealed that your paper displays significant similarities to one or more extant (previous) publications or sources, with a similarity score of 27%. For your information, our standard for similarity index is maximum 15%. A copy of the CrossCheck Similarity Report is attached for your reference.
3. Please check our format for IEEE, and revise your format based on IEEE format. You can check this link to find the template:

Reviewer A:

Brief summary and further comments for the author(s). Please justify your recommendation and suggest improvements in technical content or presentation:

1. Abstract should highlight the findings and significance.
2. References are too few to substantiate the literature review in the field of focus.
3. The 'trigger factors' and ; 'constraints' identified need to be further analysed e.g. compare and contrast in its context, rather than just taken directly from the article.
4. The review done by the author is lacking in terms of critically synthesizing the research literature, rather than 1st level of 'summarising'.
5. Need to justify and substantiate the theoretical significance and practical significance.

Reviewer B:

Brief summary and further comments for the author(s). Please justify your

recommendation and suggest improvements in technical content or presentation:

Abstract should be written shortly (objective, method and result)

---

Reviewer C:

Brief summary and further comments for the author(s). Please justify your recommendation and suggest improvements in technical content or presentation:

Abstract and keywords:

1. Please state the keywords and the database for searching literatures.
2. Please mention the triggering factors and constraints on the e-supply chain processes.
3. Please remove this section because it is not important to describe the supply chain process in the abstract.

Ex: "The supply chain process is an activity stage that starts from (i) the customer, (ii) the planning part, (iii) the purchasing department, (iv) the inventory section, (v) the production section, and (vi) the transport section. e-Supply Chain processes is a supply chain process by adding the role of information technology and electronic networks to run it. The customer sends the order to the company and after going through a series of processes (ii) through (vi), the customer will get the order. All the parties involved in the chain of e-supply chain processes are hoping the process can run smoothly and efficiently. But it is not uncommon to find obstacles, which causes customers not satisfied."

4. Please avoid the use of abbreviation in the keywords.

Ex: SLR; PRISMA.

Introduction:

5. Paragraph 1 is too long, please write it in 2 paragraphs.
6. The introduction doesn't mention specifically the research object, please specify the industry and origin for identifying the triggering factors and constraints. It is very important to elaborate the phenomena in a specific industry in a country to support the research topic. The diversity of the literature doesn't reflect the research topic and object.
7. Please identify the research gap based on the literature review on the triggering factors and constraints on e-supply chain process. It is important to justify the importance of this literature review.

Methods:

8. The methods already well-presented.

Results and Discussions:

9. The authors should avoid presenting the raw data in the article, the reader need an insight from the author analysis. Please analyze the data in table 2 and table 3. In table 2, the reader will get more insight if the author pivot the data from journal type and years. It will answer the recent trend of e-supply chain process research. In table 3, the reader will get more insight if the author present the industry or research location and pivot the table.
10. The triggering factors and constraints identification is already well-presented.

11. The authors need to present the proposed research design.

Conclusions:

12. The conclusions already well-presented.

References:

13. The references already well-presented.

Dear Authors,

For further proceeding and publication process, we need you to create a new pdf express for your final and formatted paper.

We attached your formatted paper. This is Final Paper. Please use this paper when you upload your pdf express. Please check the paper we attached, if it is not your paper or if you still want to revise the paper, please inform us before you create your pdf express. Here is a quick tutorial how to create the pdf express.

1. Please go to <http://www.pdf-express.org/>

### IEEE PDF eXpress®:

[www.pdf-express.org](http://www.pdf-express.org)

ICP - Peer Review, Electronic Publishing and Replication Services for Conference Proceedings on CD ROM and DVD ROM.

2. Enter the following conference ID: 44387XP
3. Log into the PDF Express Website. If you do not have an account please create one.
4. Click **Create New Title** button and this form will appear.

Paper Information

Enter Title Info:

Submit File for Checking or Converting

[Return to Home - Title Status](#)

Enter your paper title and click **submit file for checking or converting** button, then upload your file (attached).

5. After you upload your file, this form will appear.

[Refresh File Status](#)

| Paper ID   | Paper Title  |                         |

7. After Click approve for collection link, it will direct you to save your file in IEEE PDF Express. Rename your file Name to be → YourPaperID\_FINAL (see form below)

**IEEE PDF eXpress®**

If you are ready to approve your paper for collection, we suggest that you rename it using the following convention:

First word of title(hyphen)second word of title(hyphen)presenting author's last name(dot)PDF. For example, if the paper's title is "Systematic approach to enhanced innovation structures", and the presenting author is Colleen Edwards, the file should be renamed: **Systematic-approach-Edwards.pdf**

This naming convention is suggested in order to facilitate the sorting and sequencing of the final papers by the conference's publications chair.

File Name:

Kepada: MANIAH <maniah@binus.ac.id>, "maniah@poltekpos.ac.id" <maniah@poltekpos.ac.id>, Meyliana <Meyliana@binus.edu>, "nizar@cs.ui.ac.id" <nizar@cs.ui.ac.id>, Harjanto Prabowo <harprabowo@binus.edu>, Ford Lumban Gaol <fgaol@binus.edu>

Dear Authors,

Thank you for your contribution and participation on ICIMTech 2018. ICIMTech 2018 is now published on IEEE Explore and indexed by Scopus.

But there is an issue of this publication on Scopus:

Title: The Trigger Factors and Constraints on e-Supply Chain Processes: A Systematic Literature Review

Authors: Maniah ; Meyliana ; Achmad Nizar Hidayanto ; Harjanto Prabowo ; Ford Lumban Gaol

On Scopus, one of your author's name "Achmad Nizar Hidayanto" was recorded as "Achmad Nizar Hidavanto". We confirmed that all of our information submitted and reported to IEEE and Scopus was no problem with the correct name and title, but this issue probably come from IEEE or Scopus. We have try to contact IEEE and Scopus to change the author name to the correct one.

Any update, will be informed shortly to you.

Thank you for your attention.

Best Regards,

ICIMTech 2018 Committee
